Smoking Popes, Slow Down

I never thought you'd try to go so far,
I didn't think you'd still be where you are
Through all the breaks they'd never give you and all the faith you ever had
I never once thought it could be so bad
What are we doing with our lives and what are we going to do now,
Well i just don't know at all
And if you let them in this time
They're just gonna let you down
I never thought you'd try to go so high
If you don't come down you're gonna die
Through all the love they'd ever give you
And all the luck you ever had
There's nothing that can ever bring you back
What are we doing with our lives
And what are we going to do now,
Well I just don't know at all
