

Sneaker Pimps, Six Underground

take me down 6 underground
the ground beneath your feet
laid out low nothing to go
no where or way to meet
i've got a head full of drought
down here so far off from losing out
round here
overground, watch this space
i'm open to falling from grace
calm me down
bring it round to way high up your street
i can see like nothing else
in me you're better than i wanna be
don't think cuz i understand, i care
don't think cuz i'm talking, we're friends
overground
watch this space
i'm open to falling from grace
talk me down
safe and sound
too strung up to sleep
wear me out
scream and shout swear my time's never cheap
i fake my life like i've lived
too much
i'll take whatever your giving not enough
overground
watch this space
i'm open
i fake my life like i've lived
too much
i'll take whatever you're giving
not enough
overground
watch this space
i'm open
to falling from grace
