

Snitch, Counting Seconds

sat around and counting seconds i'm
sick and tired of everything
think i might be going insane
'cause i'm bored out of my brain

i'ts like this everyday
things will never change

so don't call and ask me how i am
'cause you know my answer stays the same
read this magazine a thousand times
you'll never know how bored i really am

sit around look out the window
now there's nothing left to say
it doesn't matter anyway
'cause i'm bored out of my brain

don't mean to complain
but everyday's the same

sit around look out the window
watch the crazy people play
it's the highlight of every single day
