

Snow Patrol, Black And Blue

Blood-red lips like soft intentions
Kiss my eyes, they're black and blue.
Even if I shouldn't be here
I cannot help myself with you.
There's something that I should have said:
We won't get a second chance.
Just one night is all we'll spend
Together and it's killing me.

She r-e-e-e-e...

She rescues me. (x15)

She r-e-e-e-e...
