

# Snow Patrol feat. Martha Wainwright, The Only Noise

It's not perfect but it's from the first take  
It's the one that I did with you here  
It seems careless that I shouldn't care less  
But it's the only noise I have of yours

I'm so tired because you've been so fired up  
And there was no keeping up with you  
It's no triumph I knew I was for the high jump  
But I delighted in my best mistake

I only thought of me  
I only thought of me  
Now you're all I see  
Now you're all I see

Reading backwards I see where the attack was  
Which in real time came out of the blue  
It's the weakness that I love this bleakness  
Over any constant happiness

Shake me out of this  
Take me out of this  
Carry me with love  
Bury me in love
