

Snowsera, Runaway

Who you want to be fits so casually.
Who you're gonna be is your own defeat.
Pick it up if you want it,
Pick it up if you wanna try,
Pick it up if you want it,
You're gonna have to try.
If you're gonna make it,
If you're gonna make it out,
If you're gonna make it,
Just to get out

We can do it if we've got this clear
We can do it if we've have to here
So go on, go on, we go, we go on
Go on, go on, we go, we go on

We wait patiently, work so endlessly
We strive hard to see, fits accordingly
Pick it up if you want it,
Pick it up if you wanna try,
Pick it up if you want it,
You're gonna have to try.
If you're gonna make it,
If you're gonna make it out,
If you're gonna make it,
Just to get out

CHORUS

Would you do it if you knew it,
This could help to break ya out, make ya now
Would you do it if you knew it,
This could help to break ya out, make ya now

CHORUS
