

Snuff, Keep The Beat

So why do you keep humming along now you find out you're no god
You can feel the poison in your blood
You won't notice the noise until it stops

'Cos you keep on keeping that beat alive
Weak lungs suck on any device
You can deal with it in your own time
After all it's only leisure

For too long you've been held down under a self inflicted spell
Your hands are shaking
Your legs are weak and you're out of breath
But You Keep on keeping that beat alive
Keep on keeping that beat alive
