

# Snuff, Spend Spend Spend

All that effort, all that fuss  
A mindless lesson, a mindless buzz  
You could build a boat with energy wasted  
And sail off into a hippie sunset  
But no, let's just pretend  
Take our shots and fall down dead  
Wake up on the count of ten  
With your hands in your pockets ready to spend

You could send a kiss ten thousand miles  
And plant it on the smallest child  
But why should that make sense to you  
You're not trying to raise a smile - it's true

You don't know how to spend it...

Spend spend spend
