

# Social Burn, Never Be The Same

She came around  
I saw it in her face  
Another time, another place  
Is what she wanted

She let me go  
So she could face this world alone  
To find out where she belongs  
She said I'm sorry

And I didn't know what should have happened  
Yeah, I didn't know what I should've Said

(Chorus)  
Please don't go away  
Cause I will never be the same  
I will never be the same  
Please don't go away  
Cause I will never be the same  
I will never be the same  
Without you

She came around about a year after she was gone  
I was passed out on her Lawn  
I couldn't live without her  
Just when I thought I'd taken more than I could stand  
Well she took me by the hand  
And said I'm sorry  
I didn't know what should've happened  
I didn't know she was gonna say

(Chorus) (Lead break)  
(Bridge) (Chorus x2)
