

# Social Code, Perfect Grave

In your room  
You sleep all day so nothing gets to you  
You've dug a hole  
But I will not crawl into it with you  
If it's the last thing I do

(Chorus)  
I will not follow you into a perfect grave  
I will not stand here while you throw it all away  
I'll keep hoping that you won't fall in all the way

You Take your pills  
You choke them down  
But every swallow kills me  
I've had enough  
Of digging in the dirt trying to save you  
That's the last thing I'll do

(Chorus)  
I will not follow you into a perfect grave  
I will not stand here while you throw it all away  
I'll keep hoping that you won't fall in all the way

I'll never know what you're feeling inside  
Now that you're buried alive  
I could keep digging and wreck my life too  
But that's the last thing I'll do

(Chorus 2x)  
I will not follow you into a perfect grave  
I will not stand here while you throw it all away  
I'll keep hoping that you won't fall in all the way

I will not follow you into a perfect grave  
I will not stand here while you throw it all away  
I'll keep hoping that you won't fall in all the way
