

# Social Distortion, Far Behind

With friends like you, who needs them??  
it means you ain't right, you ain't never going  
you're out of the car, you're afraid of any kind.  
you shake my hand, when you're pissing on my leg  
fine you lose, you don't mean this misery  
your soul is toxic, you ain't no friend of mine. NO!!!

You talk real trash when i'm not around  
goons around they're going to tear me down.  
they're all just screw it, they got better things to do  
smile through your teeth, you talk bunch of nerve  
you're judging you, you're going to stab my back  
your time's run out, i've got nothing left for you.

[Chorus:]  
I'm leaving you Far Behind  
I'm leaving you Far behind  
So I've wasted all of my time  
I'm leaving you far behind, Yeah!!!

So I'm blowing out the wings I'm ticking stuck  
You can stall the doll or you ball the wall  
Your ditzy ways got the best of you  
So I'm leaving your sake and all your glory  
You and me it's the end of the story.  
Get out of my way, I've got better things to do

[Chorus x3]

With friends like you, who needs them??  
it means you ain't right, you ain't never going  
you're out of the car, you're afraid of any kind.  
you shake my hand, when you're pissing on my leg  
fine you lose, you don't mean this misery  
your soul is toxic, you ain't no friend of mine.
