

# Social Infestation, I Died All Alone

Play hide and seek I'll hide among the stones  
No one will find me I'll blend with the stones  
Play hide and seek I'll hide among the stares  
Why won't you find me I'm left all alone

A new game has started without me by their side  
They play their new game and laugh while I die  
Play hide and seek I'll hide among the stares  
They won't come and find me I died all alone  
Play hide and seek I'll hide among the stares  
They won't come and find me I died all alone
