Socialburn, U

Take back those tears That you sometimes cry I'll be right here Till your fears subside It won't take long You just need some time

[bridge] Why can't you see

[chorus]
That I want you
I need you
In everything
That I do
I want you

Cause I love you And everything About you

Take back those years That you try to hide Relax yourself Don't lose your mind

[2nd bridge] Why can't you see Who you can be

[chorus] [lead break] [chorus x3]
