

# Socialburn, World Outside

One cigarette down and four left to go before I make it home  
And I really don't care if I make it or not cause I can't take another night alone

Yeah but before I close my eyes I can see a world in front of me  
The only thing I wish is that I wish that I could say  
There's a world outside and everybody I know is standing in line  
There's a world outside, there's a world outside and I'm trapped in here

Five years ago I was somebody else, yeah, somebody more like you  
But I threw it all away on a one night stand; now all I do is stand alone

Yeah but before I close my eyes I can see a world in front of me  
The only thing I wish is that I wish that I could say  
There's a world outside and everybody I know is standing in line  
Yes there's a world outside and everybody I know is standing in line  
There's a world outside, there's a world outside

Yeah well paint your toe nails, cut your hair you know I don't give a damn  
The only reason that I'm here is because you say I can

Yeah but before I close my eyes I can see a world in front of me  
The only thing I wish is that I wish that I could say

There's a world outside (x10)
