

# Society 1, Get My Back

Give it up I will always be free  
Give it up you will never get to me  
Give it up because I'm never gonna go down  
Give it up I will always be around

Deceiving and believing perceiving the rights of leaving  
Give it up, give it up or down  
Give it up, give it up or down to the sound

Give it up, give it up or down to the sound

Get my back because I'm coming back  
Get my back  
Get my back because what lack is never near fact  
Get my back because I'm ready to attack  
Here I come, your never going to get back

Perceiving and believing giving back belief of reason  
Give it back, give it up or down  
Give it back, give it up or down to the sound

Give it up, give it up or down to the sound

Stop!  
Your never going to catch up to me  
Stop!  
Your never going to get on through to me  
Stop!  
I'm never going to give it up!  
I'm never going to stop!

Because I'm watching and plotting and scheming, believing  
The dealing and feeling that nothing that I do is heard  
And yelling and screaming and beaming in healing  
The wounding and bruising of all the things that I endured  
The things that people do not touch

Stop!  
Your never going to catch up to me  
Stop!  
Your never going to get on through to me!

Give it up, give it up or down to the sound!
