

# Sodom, Code Red

Belonging to an alliance  
For better or for worse  
Disloyalty gets punished  
If you tear down the wall  
Your strength of will, built on sand  
Footprints on your face  
No dream and no reality  
Will save you from yourself  
No dream and no reality  
Will save you from yourself

Code Red...

Discriminated without permission  
Against the closed one  
Who was your bother hand in hand  
When the war began  
Infecting total facism  
To a crawling wimp  
They let you run the gauntlet  
And worship their defeat  
They let you run the gauntlet  
And worship their defeat

Code Red...

Exasperated defamations  
Barbarian rebirth  
Mobilized the inner beast  
Indulge your natural curse  
Reclaiming of your dignity  
Privacy lost in cries  
Unheard, pounding screams of hate  
At the wall of lies  
Unheard, pounding screams of hate  
At the wall of lies

Code Red...
