Sodom, Eat Me

Your big brown eyes look sharp Beneath your neck I feel myself getting hard Spread your crack

Hellfire and damnation You sweat blood You feel yourself well served No you're not

Eat me! Eat me!

Number one in your face Number two on your cans Orgasmic rush of lust Rip off my pants

Eat me!

Come on taste my candy cream Do the cannibal for me Built like a brick shithouse G.I.B

Eat me! Come on eat me! Eat me!
