

# Sofie, Daddy Went To War

far away from home  
treating myself like i'm alone  
forgetting everything right here  
making up defying atmosphere  
put on my make up  
thinking about you  
wishing for all of this didn't come true

you're so far away from me  
you're so still i can't even see  
waking up by the sand  
offering for your hand  
looking up the big star  
my daddy went to war

close to death  
please just catch your breath  
when you've loosen up forget it  
no hit  
i'ts not gonna fit in a circle  
when you draw a triangle  
but i'm worry  
when i say sorry to change my mind  
okay

you're so far away from me  
you're so still i can't even see  
waking up by the sand  
offering for your hand  
looking up the big star  
my daddy went to war  
you're so far away from me  
you're so still i can't even see  
waking up by the sand  
offering for your hand  
looking up the big star  
my daddy went to war

bombs and gas  
that is dangerous to know  
guns and weapons  
please don't you go

(guitar solo)

you're so far away from me  
you're so still i can't even see  
waking up by the sand  
offering for your hand  
looking up the big star  
my daddy went to war  
you're so far away from me  
you're so still i can't even see  
waking up by the sand  
offering for your hand  
looking up the big star  
my daddy went to war  
you're so far away from me  
you're so still i can't even see  
waking up by the sand  
offering for your hand  
looking up the big star  
my daddy went to war
