

Sofie, This Is My Decision

[spoken]

all you people listen to me
why can't be a girl like me free
sit down listen to this song
to tell you that you are wrong

my whole body is shaking
while i go breaking peices by one
i tried to pick all my pieces
but this life can't
i tried to make a life
i'd rather cut myself by a knife
days goes by i tried
to know what the hell to know

i don't need any permission
with my own mission
this is my decision now
you can't step up on me
then stab me
it's my dream vacation
this is my decision now

[spoken]

Yeah, it's in my heart
listen from finish to start

my head is nodding side to side
while you can't take away my breath
you speak unclear
is it im near
continue with the god smack damn
i didn't come here to bring no harm

i don't need any permission
with my own mission
this is my decision now
you can't step up on me
then stab me
it's my dream vacation
this is my decision now
i don't need any permission
with my own mission
this is my decision now
you can't step up on me
then stab me
it's my dream vacation
this is my decision now

[spoken]

(guitar solo)
