

Softcore, Their Confidence Won't Be Enough

I am not
Trusting anymore
In those people who
Dont do nothing
And just complain
They dont help anyone
They talk about a better world
No misery, no pain
But were still living in shit
And nothing changes
They talk about the youth
They say we dont care about nothing
But how to trust in those guys
Politicians fucking liars!!!
This is not going to change
Forever the same crap
Their promises just lies
The hunger will stay
It's confidence is not enough
I dont believe all this bullshit
This is the only way
