

# Something For Kate, By Numbers

These pictures remind me  
of something else entirely  
Its frightening  
theres a hole in the sky  
I thought I saw something living here before  
but I was wrong  
just smoke in my eyes  
you can have complete control  
you can have the upper hand  
execute your master plan  
you can  
you can burn this skin  
try to find something else therein  
Ill let you win  
Ill let you win  
you can choose how we go  
you can have complete control  
but after this, its no longer growth  
no nothing  
no better  
no such thing  
no such thing  
no such thing  
long enough  
I was there long enough  
I was there long enough to do some damage  
I was there long enough to do some damage  
you can have complete control  
you can choose how we go  
but after this, its no longer growth
