

# Something For Kate, Monsters

I was hanging upside down from the overpass  
Waiting to discover something about the world  
I couldn't get with the program and I couldn't listen to them  
It was like trying to think in reverse  
And I don't want to slide into apathy  
And I don't want to die in captivity  
But these monsters follow me around  
Hunting me down  
Tryin to wipe me out  
Wipe me out  
Wipe me out  
Wipe me out  
Yeah I was hiding away under water  
Waiting for distance and buying some time  
Trying to be two hundred thousand years younger  
So I could excuse myself from human kind  
'Cos I don't want to be a container  
Or a bastard with a ten page disclaimer  
But these monsters spin me around  
Get me down  
Just try and shut me out  
Shut me out  
Shut me out  
Shut me out  
Hold it in your head  
Hold it in your head  
Hold it in your head (Believe in me, believe in me, believe)  
I was hiding away under water (Shut me out)  
Waiting for distance, waiting for time (Shut me out)  
And I don't want to slide into apathy (Shut me out)  
And I don't  
and I don't want to live in captivity (Shut me out)  
Shut me out (wooh...)  
Shut me out  
Shut me out  
Shut me out
