Something With Numbers, Denenenenena

blame myself for being boring
did i say
did i say what i want
Well here's my chance to tell you everything

I blame you for being awful
did i say
did i say what i want
you're scared of change and that's the ending
did i say
did i say what i want
You're still the same so stop pretending

CHORUS

rolling down the road to keep you happy
rolling down the road to keep you happy

did i say
did i say what i want
i cannot change to meet your morals
did i say
did i say what i want
I'm moving forward so i can reach my goals

CHORUS

whenever i feel this way I get inclined to understand your way
stare into the silent light as waves of thought crash through my mind slowly
reach out slowly
reach out slowly

Chorus x 2
