

# Something With Numbers, Take My Life

Traffic lights and traffic signs  
Hurt my eyes the stereo's down  
I jerk a tear out of my face

Eyes are shut my foot's down  
It's midnight I'm on my way home  
This is the last time  
I'm on this road Curtains drawn  
Verdict's in Hope is gone for everything

Curtains drawn Verdict's in Wondering  
what could have been In my head  
I say goodbye To all my friends  
and to my town Let go of the wheel and close my eyes  
I wonder what will happen now

I'm sorry I'm sorry mother For leaving you all alone  
Curtains drawn Verdict's in Hope is gone for everything

Curtains drawn Verdict's in Wondering what could have been  
I'm way too scared to go through

I can't explain myself  
I think the same thing every night  
On the way home It's all I ever needed  
I don't want to take my life tonight  
I just want to see if there's a light
