Notes: Captain Beefheart cover

[Lee]

me to you to me  
thunderbolts caught easily  
shouting truth peacefully  
electricity

(turn it up)

high voltage man kids his night to bring the light to those who need-  
to hide their shadow deep  
though it's too bright find the light I know that friends don't mind-  
just how you glow  
midnight cowboys steers in black hit the dark road without a map to free  
seek electricity seek electricity  
midnight cowboys steers in black hit the dark road without a map to free  
seek electricity seek electricity

lighthouse beacon straight ahead straight ahead across black sea to bring  
seeking electricity

high voltage man kids his night to bring the light to those who need-  
to hide their shadow deep  
you are a shallow deed  
high voltage man kids his night to bring the light to those who need-  
to hide their insanity  
you are insanity

seek electricity seek electricity seek electricity seek electricity-  
seek electricity seek electricity seek electricity  
seek electricity seek electricity
