

# Sonic Youth, What We Know

I'm in a state of shock  
I'm creeping up and down your block  
I'm looking into you  
I'm trying to catch your view  
It's not a quiet meditation  
Oh, that we know  
Darkness makes the night more cold  
That's what we know about me  
Satisfied wise child  
Creeping heart and frozen perfection  
You can touch my hand  
I drink a case of you  
Heaven's not about your reputation  
Yeah that we know  
Forever means the night turns gold  
That's what we know about you  
It's been quite a ride  
With you my sweet, here by my side  
Funny how the mountains slide  
We're stepping across the great divide  
Our bodies vibrate slowly  
anekatips.com  
Yeah, that we know  
Bound to give it heart and soul  
That's what we know about us
