

# Sonique, Move Closer

Oh you're so far away, I can't share anything with you  
So come on over here, for a moment before it's too late  
I got no more time, for sitting around  
For sitting around, fantasizing  
So I want to  
So I want to  
So I want to  
So I want to feel you, So move a little closer  
I want to touch you, so move a little closer  
Feel you, so move a little closer  
I want to touch you, so move a little closer  
Oh you're so far away, I can't share anything with you  
So come on over here, for a moment before it's too late  
I got no more time, for sitting around, fantasizing  
I got no more time, sitting around, fantasizing  
And I want to touch you all  
And I want you feel you now  
And I want to give you everything  
I want to give you everything that  
Feel you, so move a little closer  
I want to touch you, so move a little closer  
Feel you, so move a little closer  
I want to touch you, so move a little closer  
Feel you, so move a little closer  
I want to touch you, so move a little closer  
Oh you're so far away, I can't share anything with you  
So come on over here, for a moment before it's too late  
I got no more time, for sitting around, fantasizing  
Feel you so move a little closer  
I want to touch you, so move a little closer  
Feel you so move a little closer  
I want to touch you, so move a little closer
