

Sonny & Cher, Why Don't They Let Us Fall In Love

Why do they say
That we're too young to go steady
Don't they believe it
That I love you already

Gee the moon is shining bright
I wish that you'd come out tonight
Why don't they let us fall in love
Why don't they let us fall in love

Why do they try to keep us apart
Why do they laugh at
What I feel in my heart

Gee the moon is shining bright
I wish that you'd come out tonight
Why don't they let us fall in love
Why don't they let us fall in love

Why do they say
That we're too young to go steady
Don't they believe it
That I love you already

Gee the moon is shining bright
I wish that you'd come out tonight
Why don't they let us fall in love
Why don't they let us fall in love
