

# Sons Of The Desert, Devil On Both Shoulders

She loves to love me  
I love it when she does  
When we get together  
I feel a bit corrupt

When she feels the yearnin'  
I just let her go  
And we're off to somewhere  
Way out of control

I've got a devil on both of my shoulders  
When that angel's in my arms  
She sets me free when I get to hold her  
She lights a fire in my heart  
My self-control is at an all-time low  
When I hear a voice sayin' way to go  
In stereo  
I got a devil on both of my shoulders

I know it oughta be illegal  
For us to have this much fun  
And I know my choice between good and evil  
But there's a devil on both of my shoulders

I've got a devil on both of my shoulders  
When that angel's in my arms  
She sets me free when I get to hold her  
She lights a fire in my heart  
My self-control is at an all-time low  
When I hear a voice sayin' way to go  
In stereo  
I got a devil on both of my shoulders

Caught in the middle of the powers that be  
When I feel my  
Conscience gangin' up on me

I've got a devil on both of my shoulders  
When that angel's in my arms  
She sets me free when I get to hold her  
She lights a fire in my heart  
My self-control is at an all-time low  
When I hear a voice sayin' way to go  
In stereo  
I got a devil on both of my shoulders
