

Sons Of Thunder, Flames Of Fire

See the flame, see the fire
Watch it, watch it now
See the fire, see the smoke
Deep inside of me

See the flame, see the fire
Walls come falling down
See the fire, see the smoke
Watch it, watch it now

And I feel this fire grow inside of me
Can't turn no where to hide, to leave
A revolution in my soul
A solution people for us all

Higher and higher
Faster and faster
This fire will explode if we let
God take all control, yeah yeah
(Fire, fire)

Listen up, listen now
Blowin' in my soul
Listen now, listen good
Hearts on fire, girl
Listen up, listen now
God-devotion, boy
Listen up, listen good
Love-explosion, bang!

And I feel this fire grow inside of me
Can't turn no where to hide, to leave
A revolution in my soul
A solution people for us all

Higher and higher
Faster and faster
This fire will explode if we let
God take all control
Higher and higher
Faster and faster
This fire will explode if we let
Jesus take control, yeah yeah yeah
Go!

God inside, burning fire
Watch it, watch it now
Fire burn, hearts will turn
Check it, check it now
See the flame, see the fire
My heart's burnin' now
See the fire, see the smoke
Watch it, watch it

And I feel this fire grow inside of me
Can't turn no where to hide, to leave
A revolution in my soul
A solution people for us all

Higher and higher
Faster and faster
This fire will explode if we let
God take all control
Higher and higher

Faster and faster
This fire will explode if we let
Jesus take control, yeah yeah
(Fire, fire)
