

Sophia, Darkness (Another Shade In Your Black)

Your obsession with death fascinates me
Wet my head in your poison stream
Weigh me down with your ideas of the infinite
And I will drown

I will drown in your
I will drown in your
I will drown in your poison stream

Your obsession with death fascinates me
Wet my head in your poison stream
Weigh me down with your idea of the infinite
And I will drown

You said you're attracted to the darkness
Well baby, that's okay by me
I'll just be another shade in your black

I will drown in your poison stream

You said you're attracted to the darkness
You said you're attracted to the darkness
You said you're attracted to the darkness
Well baby that's ok by me

I'll just be another shade in your black
I'll just be another shade in your black
I'll just be another shade in your black
I'll just be another shade in your black
