

Sophia, I Left You

oh I left you
but I never really felt that far away
oh I left you
but it seemed to hurt us less than if I stay
yeah I left you
but you never really felt that far away
yeah I left you
but now it seems to hurt me more than if I stay

and if I will you closer
can you feel the presence of my thoughts
and you don't say much now
but what you say just tears
yeah tears the world apart
and are you waiting
are you waiting for the end before it begins
and are you waiting
are you waiting for the end

yeah I left you
but you never really felt that far away
oh I left you
but now it seems to hurt me more than if I stay
and yeah I left you
but how long will it take for you to forget this hate
yeah I left you
but is "I'm sorry" too simple a thing to say now

and if I will you closer
can you feel the presence
can you feel the presence of my thoughts
and you don't say much now
but what you say
yeah just
yeah just
yeah just tears the world apart
and are you waiting
yeah you're always waiting for the end
yeah before it begins
and you're always waiting
yeah you're waiting for the end
yeah you're always waiting
