

Sophie and the Giants, DNA (feat. MEARSY)

Never felt this way before
Walking like I own the floor
It's Friday and I'm the cure
(And so it begins)
I want the room to see
The dangerous side of me
My idiosyncrasies
The song is kicking in

This kind of melody
Oh, it makes my body move
Too hot, you can't cool me down
This room is spinning around
This kind of melody
It gives me nothing to prove
Feet off the ground
This is my D-N-A sound

This is my D-N-A sound

Now I'm in the atmosphere
Sweat, blood and dirt cheap beer
Yeah, I'm in a different gear
(I can't stop)

It's getting higher
It's getting higher

This kind of melody
Oh, it makes my body move
Too hot, you can't cool me down
This room is spinning around
This kind of melody
It gives me nothing to prove
Feet off the ground
This is my D-N-A sound

(Come on, come on, come on, come on)
(Come on, come on, come on, come on)
(Come on, come on, come on, come on)
This is my D-N-A sound
(Come on, come on, come on, come on)
(Come on, come on, come on, come on)
(Come on, come on, come on, come on)
(Come on, come on)

It's getting higher
It's getting higher

(Come on, come on, come on, come on)
(Come on, come on, come on, come on)
(Come on, come on, come on, come on)
This is my D-N-A sound
(Come on, come on, come on, come on)
(Come on, come on, come on, come on)
(Come on, come on, come on, come on)
This is my D-N-A sound
