

# Sophie B. Hawkins, Only Love

Spoken sophie it's time  
Ahaaa

You don't know why I'm crazy  
I don't know why your blue  
You messed with my head  
You messed with the dead  
Now I'm gonna mess with you  
I don't know why your lazy  
I'm so in love with you  
What's God gonna see  
Who's God gonna know  
When's God gonna help us through

I can't deny I can't explain I can't reply I can't refrain  
I want his hands I want his chest I want his feet I want his sex  
I am the child I am the whore I am the wild woman at your door  
I need to touch I need to talk I need to love I need to give you you up

What am I fighting for  
If I win I lose my life  
I need you more and more  
To break my will tonight

Only love can set us free  
Only love can bear the truth  
Only love can bring us peace  
Only love can save me and you

Oh daddy what I've been thinkin'  
Only heaven knows

What's ma gonna see  
Who's ma gonna blame  
When's mama gonna carry you home

I have the urge I have the mind I have the touch I drank the wine  
I want the loss I want the pain I want to start my life again  
I can't define I can't forget I can't restrain the feeling of regret  
I know the dead I'm not alone I made my bed I wanna let you you go

What am I frightened for  
If I speak I lose my mind  
You've broken down the door and there is no place to hide

Only love can set us free  
Only love can bear the truth  
Only love can bring us peace  
Only love can save me and you  
Only love can purify  
Only love can conquer fear  
Only love can testify  
Only love can make a miracle of life

Only love can set us free  
Only love can bear the truth  
Only love can bring us peace  
Only love can save me and you  
Only love can purify  
Only love can conquer fear  
Only love can testify  
Only love can make a miracle of life
