

# Sophie Ellis-Bextor, Mixed Up World

(It's a mixed up world, it's a mixed up world, it's a mixed up world)

Ohh, Ooh

Verse

I'm feeling all messed up  
I have a voice inside my head  
It says down to the left  
Then it says down to the right  
Don't wanna bring you down  
But I am really needing guidance now  
What would you do within my shoes?

Bridge

(Go home)  
I'm going crazy  
(Stay high)  
I've never felt so wrong  
(Go home)  
I want to turn and run  
We've got to find a place to go

Chorus

So when you're feeling kind of mixed up  
Just remember it's a mixed up world  
And if you're feeling life is just too tough  
Just remember you're a real tough girl

(It's a mixed up world, it's a mixed up)

Verse

I look around my life and all I see is contradiction  
And a lack of faith  
Cynicism rules the day  
I know it has its place  
But I am really needing guidance now  
Reminding me I'm strong inside

Bridge

(Go home)  
I know you love me  
(Stay high)  
We'll make it through this time  
(Go home)  
I want to feel the sun  
We've got to start to take control

Chorus

So when you're feeling kind of mixed up  
Just remember it's a mixed up world  
And if you're feeling life is just too tough  
Just remember you're a real tough girl

(It's a mixed up world, it's a mixed up world, it's a mixed up world)

Do I feel this pain?  
Has this world gone insane?

Chorus

So if you're feeling kind of mixed up  
Just remember it's a mixed up world  
And if you're feeling life is just too tough  
Just remember you're a real tough girl

So when you're feeling kind of mixed up  
Just remember it's a mixed up world  
And if you're feeling life is just too tough  
Just remember you're a real tough girl

Don't wanna hurt no more  
Don't wanna hurt no more  
Don't wanna hurt no more  
Don't wanna hurt no more  
Don't wanna hurt no more  
Don't wanna hurt no more

Repeat Chorus to fade...
