## Sophie Ellis-Bextor, The Universe Is You

Read my lips, I don't want to Get in fault with, relativity

Take my time use it wisely You're controlling certain gravities

You're coming around so late in the day I've been here before I know what to say You're moving the ground you're making me feel As if the universe is you The universe is you, the universe is you, the universe is you.

Tell your self you can't have me I rely on probabilities

You're coming around so late in the day I've been here before I know what to say You're moving the ground you're making me feel As if the universe is you The universe is you, the universe is you

You're coming around so late in the day I've been here before I know what to say You're moving the ground you're making me feel As if the universe is you

You're coming around so late in the day I've been here before so I know what to say You're moving the ground you're making me feel As if the universe is you The universe is you, the universe is you, the universe is you The universe is you, the universe is you The universe is you, the universe is you
