

Sophie, Happy Together

I just can't believe what I'm hearing
the truth is so hard to bear
Come back home, stop me grieving
need to know that you still care
'cos we were

Happy together so happy together
Happy together so happy together

You opened the door for me
gave me the love I need
I want more, can't you see
that you've caused my heart to bleed?
and we were..

Happy together so happy together
Happy together so happy together

Now I can see
loneliness chasing me
won't you give me a chance
to revive a lost romance?

Happy together so happy together
Happy together so happy together
Happy together so happy together
Happy together so happy together... (repeat to fade)

Love you can afford a fall
if given good enough reason
Love say you can conquer all
'cos hope and love are in season..(repeat to fade)
