

Sophie Zelmani, Time

Time to close up the chest now baby
Its time I know
To make up the room now baby
Its time I know
Got to move it a little further
Back from the welcome hall
Ive got to surround it, baby
With thick thick walls
But listen through the keyhole
How your neighbor sings
For the sorrow light
That you bring
But you danced with me darling
Danced with me darling
Time to forgo it baby
Its time I know
Some kinds can just be stored, honey
For the better go
But you danced with me darling
Danced with me darling
Danced with me darling
Danced with me darling
