

Soul Asylum, Misery

They say misery loves company
We could start a company and make misery
Frustrated, Incorporated
Well I know just what you need
I might just have the thing
I know what you'd pay to see
Put me out of my misery
I'd do it for you, would you do it for me
We will always be busy making misery
We could build a factory and make misery
We'll create the cure; we made the disease
Frustrated, Incorporated
Frustrated, Incorporated
Well I know just what you need
I might just have the thing
I know what you'd pay to feel
Put me out of my misery
All you suicide kings and you drama queens
Forever after happily, making misery
Did you satisfy your greed, get what you need
Was it only envy, so empty
Frustrated, Incorporated
Frustrated, Incorporated
Frustrated, Incorporated (put me out of my misery)
Frustrated, Incorporated (I'd do it for you, would you do it for me)
Frustrated, Incorporated (forever after happily)
Frustrated, Incorporated (making misery)
etc...
