

# Sound of a revolution, Turn My Back On Love

Time is running out  
For all of us walking down that one way street  
And we're lost  
but we will always find another way around it all without losing our minds  
Like me and like you we never made it through  
Now we're going down again  
Why do we still pretend  
I will never turn my back on love like you  
Life is passing by  
And we never had a chance to earn a first class ticket to ride  
And we're lost  
but we will always find another way around it all without losing our minds  
Like me and like you we never made it through  
Now we're going down again  
Why do we still pretend  
I will never turn my back on love like you  
How can you sleep at night when the lights turn out  
How can you keep the faith when you're stuck in doubt  
Like me and like you we never made it through  
Now we're going down again  
Why do we still pretend  
I will never turn my back on love like you
