Space, Mister Psycho

All these people are laughing at him And although he tries it's getting to him And if he sees just-a one more grin he won't be held responsible The city's closing in on him And everywhere's getting smaller and smaller And his fingers are getting itchy now And he won't be held responsible, so...

Don't freak him out Don't freak him out Don't freak him out Before he blows his top Don't freak him out Don't freak him out Don't freak him out Before he blows his top Don't freak him out Don't freak him out Before he blows his top Don't freak him out Before he blows his top Don't freak him out So don't you freak him out

Mister Psycho, he'll blow you away (ha ha ha ha) Mister Psycho, he'll blow you away (ha ha ha ha) Mister Psycho, he'll blow you away (ha ha ha ha) Mister Psycho, he'll blow you away (Blow you away)

See his eyes they're bloodshot red And bloodshot's what you're going to be It's not the fact that he's following you It's that he's not trying to hide that's what's bothering you The city's closing in on him And everywhere's getting smaller and smaller And his fingers are getting itchy now And he won't be held responsible, so...

Don't freak him out Don't freak him out Don't freak him out Before he blows his top Don't freak him out Don't freak him out Don't freak him out Before he blows his top Don't freak him out Don't freak him out Before he blows his top Don't freak him out Before he blows his top Don't freak him out So don't you freak him out

Mister Psycho, he'll blow you away (ha ha ha ha ha) Mister Psycho, he'll blow you away (ha ha ha ha ha) Mister Psycho, he'll blow you away (ha ha ha ha ha) Mister Psycho, he'll blow you away (Blow you away)

(Hey Mister Pyscho you don't wanna blow me away)

Now he's getting really close Can you feel his breath upon your neck Now he's listening to your thoughts Now's the time to be a nervous wreck The city's closing in on him And everywhere's getting smaller and smaller And his fingers are getting itchy now And he won't be held responsible, so...

Don't freak him out Don't freak him out Don't freak him out Before he blows his top Don't freak him out So don't you freak him out

Mister Psycho, he'll blow you away (ha ha ha ha ha) Mister Psycho, he'll blow you away (ha ha ha ha ha) Mister Psycho, he'll blow you away (ha ha ha ha ha) Mister Psycho, he'll blow you away (Blow you away)
