

Spacehog, Carry On

You know I know ive been damaged , savaged
you know i know that is horrid is sordid
but you are not the only one i love
you think im someone sent from up above
well i kiss your hands your feet your hair
well if im a man, then im your fan
you're the best thing that im ever gonna have
so take my hand and carry on and on and on

Ain't no mistaking this is taking and raping
im sick and tired from
dreams awaking im faking

but you are not the only one i love
you think im someone sent from up above
i kiss your hands your feet your hair
well if im a man, then im your fan
you're the best thing that im ever gonna have
so take my hand and carry on and on and on
