

# Spagna, I Always Dream About You

i always dream about you  
i always think about you

I I've got this feeling inside  
this love will be all my life  
yes forever  
you you found the way from the start  
to go straight to my heart  
don't change it never  
I build my world around you  
coz I really love and trust you  
you are my sweet reality  
you mean so much to me

I always dream about you  
coz we were made to live together  
I always dream about you  
coz we were made to love each other  
I always dream about you

you you made this woman feel new  
and feel so beautiful too  
just beeing loved  
every single day that I live  
I live it coz I can give  
to you all my love  
and every time you want me  
it is something to hold on to  
I need to know you need me  
the way I'm needing you

chorus

I always dream about you  
about you about you ah

I always dream about you  
coz we were made to live together  
I couldn't live without you  
coz we were made to love each other  
I always dream about you

I've got this feeling inside  
this love will be all my life  
yes forever  
you found the way from the start  
to go straight to my heart
