

# Spanky & Our Gang, Like To Get To Know You

While you're hung up on yesterday  
You got nothing going today  
While you're hung up on tomorrow  
All the good times are slipping away  
Life is right now and if you take it  
The share will be the biggest amount  
There's only one way to make it  
That's making every minute count  
Making every minute count  
Making it groovy  
Making love, making it now  
If you know a better way of goin'  
You know you'd better show me how  
With your nose pressed to the window  
Life is just a mirror of your mind  
You can find much more to get into  
Make up your mind, baby, now is the time  
Time to live life like a lover  
Time to keep time from keepin' you down  
Time to get it all together  
Making every minute count  
Making every minute count  
Making it groovy  
Making love, making it now  
If you know a better way of goin'  
You know you'd better show me how  
Making every minute count  
Time to live life like a lover  
Time to keep time from keepin' you down  
Time to get it all together  
Making every minute count  
Making every minute count  
Making it groovy  
Making love, making it now  
Making every minute count  
Making it groovy
