

Spark, Freely Given

Oh, Friend, You've been on my mind lately
I've seen how you've been getting by
I can tell there's something different
You can see the hurt deep in your eyes
And when your world comes crashing down
I'll be the friend to help you turn around

(chorus)

I'm gonna be there
When the storms come crashing in
I'm gonna be there til the very end
I'm gonna be there
When the darkness calls your name
I remain the same

There are things to be said
But not this time
I just want to see you
See you from the inside, from the inside
And when your world comes crashing down
I'll be the friend to help you turn around

I wish that you were here right now
My arms would be around you
There's nothing you can't do
Together we'll make it through
And when your world comes crashing down
I'll be the friend to help you turn around
