

# Sparkadia, Our Own Way

With the sand in your feet I can feel the beat of your heart  
It's hard to explain I won't have to again if you listen hard

Don't listen to what they say  
We're going to make it our own way

With the wind in your hair you will never compare to the rest of them  
Look at the sea don't tell me that tomorrow won't wait

Don't listen to what they say  
We're going to make it our own way
