

# Sparks, Scheherazade

Scheherazade, you enslave me  
Others begged, crying "save me"  
Wasted words, hatred tore me  
Scheherazade, tell me stories  
Ships at sea, all imagined

Bravery, all imagined  
Bloodless blood, colorblindness  
Scheherazade, who's behind this?  
Scheherazade, there's a sameness  
To the world in its plainness  
But your worlds are on fire  
Filled with lust  
Filled with liars

Once upon a time  
Very, very long ago  
Once upon a time  
Very, very far away  
All I want are illusions  
Scheherazade, no conclusions

Every night, entertain me  
No repeats, entertain me  
Ships at sea, all imagined  
Bravery, all imagined  
Bloodless blood, colorblindness  
Scheherazade, you're behind this

Scheherazade, Scheherazade, Scheherazade, Scheherazade  
I won't kill you
