

# Sparta, Travel By Bloodline

Did you listen to his stories  
He had some stories that would change your life  
This doesn't have to be the saddest day  
We can always hold the brilliant memories  
You're always on my mind  
Turned from Tragedy  
A source to draw from  
A bloodline legacy

You showed me more than just these railways  
It was your passion, and I learned that well  
And forever, I'll keep your bloodline legacy  
And you're always on my mind

This photograph, I'll carry to my grave  
I never lost so much as I did that day

I miss you
