

Special Ed, Come On, Let's Move It

[VERSE 1]

I was proven effective by a clinical test
Because some couldn't come to believe I was the best
So they tested me, and now they in the clinic
They almost arrested me, because I did it
But I didn't mean to do it
But you had to mess with me, and then you blew it
Now you got to chew it, and swallow it all
I guess that's the way that you bounce the ball
Or somethin like that, my mother always told me
Your mother always told me, "Baby, hold me"
Don't get mad because you don't get g's
And I get extra cheese like pizza
You can't keep your girl because you can't please her
But let's get back to the fact that's been approven
So let me prove it, come on, let's move it

(Come on)

(Yeah y'all, come on)
