

Spectacular!, Something to Believe in

I use to see the world as cold
So cold
I always felt so all alone
Oh
How did you know you'd find me here
Yeah
How did you ever see behind my tears
Yeah
I never realized
How anyone could make everything so right
I thought so sad
You brought me back
Ohhhhhhhhhhhhhhhhhhh
You give me something to believe in
After all that we've been through
The love you give it all comes back to you
You give me something to believe in you can
see that we all need and here with you is where
I'm meant to be
I don't have to imagine anymore
No oh
All the time it was you I was waiting for
Oh
And here we are together side by side
And nothing seems impossible tonight
You looked inside my heart
And seemed to get me from the start
And we've got the chance
To make this last
You give me something to believe in
After all that we've been through
The love you give it all comes back to you
You give me something to believe in you can
see that we all need and here with you is where
I'm meant to be
Lead us out
So high above
Higher than high
Now we realize
Here it was all alive
Oh
It takes his love
To find us
Guide us all
The way
That's the one thing we can trust
All we need is love
To reach out
Show how we belong here together
You give me something to believe in
After all that we've been through
The love you give it all comes back to you
You give me something to believe in you can
see that we all need and here with you is where
I'm meant to be
Yeah
Ohhh
Yeah
Ohhh
Ohhh
Ohhh
Ohhh
Ohhh
Ohhh
